EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brinton Yorks on 4/3/06.

The application has been amended as follows:

In claim 16, line 3, "are" has been deleted and "--have a total area--" has been inserted.

The following is an examiner's statement of reasons for allowance: The subject matter of the independent claim could either not be found or was not suggested in the prior art. The subject matter not found was the method comprising coupling a patient to an AED via a pair of identical universal electrodes suitable for use upon both adults and children which have a total area smaller than conventional adult electrodes and larger than conventional pediatric electrodes for delivering the energy level produced by the AED to a patient, in combination with the other steps in the claim. As addressed on page 2 of the specification, by the declaration submitted on 1/13/06, and well known in the art and ANSI/AAMI standards, defibrillation systems use one adult electrode of 50 or 75-100 cm², with the total area of the pair of adult electrodes being greater than 150 cm² or one pediatric electrode of 15-45 cm² with a total area of the pair of pediatric electrodes being greater than 45 cm². The prior art of Morgan '468 discloses the use of "adult" or "pediatric" electrodes, but does not state that they are identical, state the size of the

electrodes, or that the electrodes have a total area smaller than conventional adult electrodes and larger than conventional pediatric electrodes.

It is noted that the declaration submitted on 1/13/06 has been considered.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to George R. Evanisko whose telephone number is 571 272 4945. The examiner can normally be reached on M-F 6:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Angela Sykes can be reached on 571 272 4955. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
